## Grade 5 Summer Reading List

There are many good authors of children's books. We have provided a list of just some of the many that write age appropriate books for your fifth grader. These are available in libraries and at local bookstores. Try to interest your child in the many different genres that are available such as myths, legends, realistic fiction, historical fiction, as well as books related to science or other subjects of interest. Please encourage your child to record books read in their booklets which were sent home at the end of the year. Happy reading!
